

DOE 2008 Representative Transportation Routes to Yucca Mountain and Transportation Impacts (Cask Shipments by State)

This map depicts the state-specific impacts (number of casks) and route maps evaluated in the 2008 U.S. Department of Energy (DOE) Final Supplemental Environmental Impact Statement for Yucca Mountain (DOE/EIS-0250-F), Appendix G, Section G.10.

The number in each state shows the combined rail and truck high-level nuclear waste cask shipments that DOE estimated would traverse each state en route to Yucca Mountain.
