

WHY WE MARCH

September 21, 2014
New York City

Because the ice caps are melting...

Fukushima

Chernobyl

Three Mile Island

For ourselves. For our children. For their children.

Sandy, Katrina, and the storms to come

Because nukes can't and won't save the climate

FOR A SAFE, CLEAN, AFFORDABLE NUCLEAR-FREE, CARBON-FREE ENERGY SYSTEM

We have one planet; one chance

Because change requires action--action requires all of us

NO NUKES, NO COAL, NO KIDDING

PEOPLE'S CLIMATE MARCH

Nuclear-Free, Carbon-Free Contingent
